

Fernando González

Android Developer

Personal Info:

E-mail: fernando.gonzalez.upiicsa@gmail.com
Birthdate: June 12, 1990

About me:

Fernando is a versatile software engineer who enjoys coding in Java, Kotlin, JavaScript, PHP and Python. He likes to learn new languages, frameworks, libraries, algorithms, patterns and many other things on his daily basis. He's been developing Android apps since 2016 but he's also familiar with KMP and backend. Lately he's been playing and discovering AI tools and frameworks like LangChain, RAGs, LLMs and Hugging Face. You can ask questions about me to my very own personal chatbot at:

<https://ferglezt.streamlit.app/>

Skills

- Jetpack Compose
